Critical Incident Policy

1. Introduction

In St. Joseph's N.S., Leitrim Village, we aim to protect the well-being of our pupils and staff by providing a safe, nurturing, tolerant and well catered for environment at all times as outlined in our school mission statement and Health and Safety Policy.

The BOM through the Principal, Staff and the Parents Association has drawn up a Critical Incident Management Plan to help the school management and staff to react quickly and effectively in the event of an incident, to enable maintain a sense of control and to ensure that appropriate support is offered to students and staff. They have established a Critical Incidents Management Team to steer the development and implementation of the plan.

2. Rational

This policy has been developed as recent research suggests that schools can manage incidents better and return to normal sooner after an incident when a plan is in place.

"The key to managing a critical incident is planning. NEPS psychologists report that schools that have developed school policy and a Critical Incident Management Plan (CIMP) are able to cope more effectively in the aftermath of an incident. Having a plan enables staff to react quickly and effectively and to maintain a sense of control. It may also ensure that normality returns as soon as possible and that the effects on students and staff are limited". Responding to Critical Incidents, Guidelines for Schools, NEPS, 2007

The CIMT have consulted resource documents available to schools on www.education.ie and www.nosp.ie including: Responding to Critical Incidents Guidelines and Resources for Schools (NEPS, 2016) and Well-Being in Primary Schools - Guidelines for Mental Health Promotion (DES, DOH, HSE, 2015)

3. Ethos

The management and staff of St. Joseph's N.S. aim to create of coping, supportive and caring atmosphere in the school. Systems are in place to promote emotional health and wellbeing and build resilience in both staff and pupils, thus helping them to cope with a range of events. These systems (prevention systems) include measures to address both physical and psychological safety of the school community for example: -

- Regular Fire Drills to evacuation the school quickly and safely.
 - Fire exits and extinguishers are regularly checked

 - Front gates are locked during school break times
 - School doors are locked during class time. All visitors to the school must enter via the main door which has a buzzer system in place.
 - School's Code of Behaviour, Anti- Bullying Policy and Health and Safety Policy
- S.P.H.E. Plan which includes resources and programmes to address the personal and social development of students to help create a psychologically safe environment. It addresses issues such as grief and loss; communication skills; stress and anger management; resilience; conflict management; problem solving; help-seeking; bullying; decision making and prevention of alcohol and drug misuse. Promotion of mental health is an integral part of this provision

- Staff are familiar with the Child Protection Guidelines and Procedures and details of how to proceed with suspicions or disclosures and the School Child Protection Policy
 - Regular training for staff and BOM on (Stay Safe, Walk Tall, Child Protection)
 - The school has a clear policy on bullying and deals with bullying in accordance with this policy
 - There is a care system in place in the school using the "Continuum of Support" approach which is outlined in the NEPS documents published on 2007 for primary schools and 2010 for post primary schools. See also Student Support Teams in Post Primary Schools (2014). These documents are available on www.education.ie
 - Staff are made aware of the support available to them (Employee Assistance Service, Carecall 1800 411057)

Appendix 2: Sample Letters and draft media announcement

The following letters will be printed on school headed paper: -

Letter 1: Sudden Death/ Accident

Date

Dear Parent/Guardian

The school has experienced (*the sudden death, accidental injury, etc.*) of *Name of student(s)*. We are deeply saddened by the deaths/events.

Our thoughts are with (*family name*).

We have support structures in place to help your child cope with this tragedy (*elaborate*).

It is possible that your child may have some feelings and questions s/he may like to discuss with you. It is important to give factual information that is age appropriate.

You can help your child by taking time to listen and by encouraging him/her to express feelings. All children are different and will express their feelings in different ways. It is not uncommon for children to have difficulty concentrating or be fearful, anxious, or irritable. They may become withdrawn, cry, complain of physical aches and pains, have difficulty sleeping or have nightmares. Some may not want to eat. These are generally short term reaction. Over the course of the coming days, please keep an eye on your child and allow him/her to express their feelings without criticism.

Although classes will continue as usual, I anticipate that the next few days will be difficult for everyone.

(Optional)

An information night for parents is planned for (*date, time and place*). At that time, further information about how to help children in grief will be given.

We have enclosed some information which you may find useful in helping your child through this difficult time.

Young people frequently turn to social media to see what others are saying, or to find out more. At these times it is important that you monitor their use and engage with them about what they read. We urge you to emphasise and reinforce the need to be extremely sensitive and careful about what they post.

If you would like advice you may contact the following people at the school (*details*).

Principal's signature

Letter 2: Violent Death

Dear Parent/ Guardian,

I need to inform you about a very sad event that has happened.

A child/young person from the neighbourhood, the sister/ brother of (*name of student*), a student here at school, was killed as a result of (*a violent attack, violent incident in the street etc.*) earlier this week. We are all profoundly saddened by his death.

We have shared this information and had discussions with all of our students so that they know what has happened. School staff members have been available for students on an on-going basis today. Other support personnel (*including psychologists etc., according to actual arrangements*) are available to advise staff in their support of students.

The death of any young person is tragic, but a violent death is even more difficult. It is hard to have to teach our children about the violence in our world and to accept that sometimes we do not have the power to prevent it.

This death may cause a variety of reactions in your child. Some children/young people may be afraid for their own life and for the lives of those they love. Take time to listen to their fears and reassure them that what has happened is rare.

We have enclosed some additional information that may be useful during this time.

The media are in the vicinity of the school and may approach you or your children. You need not respond to their questions if you are approached. We will not allow the media to interview your child at school and our general advice is that you should not let your children be interviewed. They are not mature enough to judge what to say and may say something they will regret later.

In these times, young people tend to turn to social media to see what others are saying, or to find out more. While social media can be of great consolation, we would urge you to reinforce the need to be extremely sensitive about what your son/daughter might post to others.

Our thoughts are with (*family name*) and with each of you.

Sincerely

Principal's name

In the event of a suspected case of Covid 19

If a staff member/pupil displays symptoms of COVID-19 while at school, the following are the procedures to be implemented:

- if the person with the suspected case is a pupil, the parents/guardians should be contacted immediately
- isolate the person and have a procedure in place to accompany the individual to the designated isolation area in the corridor outside sixth class, keeping at least 2 metres away from the symptomatic person and also making sure that others maintain a distance of at least 2 metres from the symptomatic person at all times
- if it is not possible to maintain a distance of 2 metres a staff member caring for a pupil should wear a face covering or mask. Gloves should not be used as the virus does not pass through skin
- provide a mask for the person presenting with symptoms. He or she should wear the mask if in a common area with other people or while exiting the premises
- assess whether the individual who is displaying symptoms can immediately be directed to go home/be brought home by parents who will call their doctor and continue self-isolation at home

St. Joseph's N.S., Leitrim Village, Roll No: 01125B

- facilitate the person presenting with symptoms remaining in isolation if they cannot immediately go home and facilitate them calling their doctor. The individual should avoid touching people, surfaces and objects. Advice should be given to the person presenting with symptoms to cover their mouth and nose with the disposable tissue provided when they cough or sneeze and put the tissue in the waste bag provided
- if the person is well enough to go home, arrange for them to be transported home by a family member, as soon as possible and advise them to inform their general practitioner by phone of their symptoms. Public transport of any kind should not be used
- if they are too unwell to go home or advice is required, contact 999 or 112 and inform them that the sick person is a COVID-19 suspect
- carry out an assessment of the incident which will form part of determining follow-up actions and recovery
- arrange for appropriate cleaning of the isolation area and work areas involved.

The HSE will inform any staff/parents who have come into close contact with a diagnosed case via the contact tracing process. The HSE will contact all relevant persons where a diagnosis of COVID-19 is made. The instructions of the HSE should be followed and staff and pupil confidentiality is essential at all times.
